SOFTWARE ENGINEER EXPERIENCE

Software Engineer Intern

June 2023 – July 2023

Rithm School

San Francisco, CA

- Introduced a new Slack bot messaging feature to notify instructors if they have not made their lecture public on the day of the scheduled start date
- Implemented a new tagging and tag search feature for all exercises, lectures, events, and assessments
- Refactored the current login page to display a unique welcome message and image for different cohorts

TECHNICAL PROJECTS

Jobly

[Live Demo](#) | [Github](#)

- Created a job-searching app with React, Node, Express, and PostgreSQL
- Implemented middleware for user authentication/authorization with JWT tokens
- Utilized local storage to keep the user session active when the user leaves or refreshes the webpage

Warbler

[Live Demo](#) | [Github](#)

- Developed a Twitter clone using Python, Flask, and PostgreSQL
- Wrote unit tests with 83% coverage of the whole application
- Utilized Flask-Bcrypt library to provide one-way encryptions to protect user passwords
